

Nonconformist Records

The list below contains references to original registers held at Powys Archives as well as indexes and transcript available in our searchroom. It also includes searchable indexes available online on the FamilySearch website (IGI – International Genealogical Index).

The entries are arranged by the parish in which the chapels or meeting houses are located. Please note therefore that some registers contain the names of people from a wider area than the parish which is mentioned. The name of the chapel is recorded secondly, followed by the denomination. Where the collection contains several items which contain names of members, the researcher is directed to 'see catalogue'.

IGI online: click on the following county links which will take you to the IGI website.

[Breconshire](#)
[Montgomeryshire](#)
[Radnorshire](#)

Access to original records held by Powys Archives is granted in compliance with the Freedom of Information Act, Data Protection Act and the Environmental Information Regulations

Data Protection: There is restricted access to marriage registers of 85 years, baptism registers of 100 years, and other records containing named individuals of 100 years (membership lists and so on).
