#### Letter-road. [71M36] [see also 71M26]

Llanmerewig 10 October 1771. One part of the money which was levied on the inhabitants of Llanmerewig towards repairing the road is stil in my custody, viz., £8 4s 8d and my reason for not expending it was owing to the opinion of the trustees of the turnpike that it was better not to lay it out till such time as the road was formed by their surveyor and that then they would advance double the sum to assist in repairing it. Hitherto their attention has been paid to other parts of the road that wanted it more, but I am in hopes we shall set about this next spring if the court think it proper to continue the money in my hands till then. If not, I am ready to pay it to whomsoever they shall appoint. Roderick Jones\*.

## **Estimate-bridge**. [73H49]

The estimate of John Francis of pa. Westbury, carpenter, for taking down and rebuilding Cilcewydd bridge over the river Severn.

Taking down the old bridge and rebuilding the same being 353 feet in length and 10<sup>1</sup>/<sub>2</sub> wide, two bays that stand over the water upwards of 30 feet each after being made into three with two pier of new timber to set under, with sills 30 feet long in the bed of the water and one foot square every standard belonging to the same to be the same square. Laces to every standard 18 feet each six piles to every sill, each pile 12 feet long to be shed with iron 10lb weight to one pile. Every bar that stands over the river to be belted through with iron according to the model. All the bays that stand upon the land are to be reduced shorter on account of badness of bearing and decaying of timber. One new bay must be made as an addition upon account of shortening the others.

The timber that goes to do the framing for the whole work with			
the best of the old stuff	73	10	0
The whole 3 inch plank that covers the bridge 4390 ft at 6d	109	15	0
Planks 17 foot by 9 inch wide and 5 inch thick, 757 feet at 10d	31	0	0
Stuff for the engine to drive the piles and wind and scaffolding	6	0	0

300 weight of iron at 4d for bolts and shores for piles	6	0	0
Gads and nails		10	0
Ropes for winding up the timber and scaffolding	5	0	0
To swing every new sill that lies upon the land and every new			
standard 3 feet high in the bottom and to blood bore every sill			
through the mortice to prevent water lodging in the sills and			
also to prevent decaying of the tenants?	233	15	10
All the carpenter's work	120	0	0
-	353	15	10

All the old plank that will stand to be made use of again are to be deducted out of the new 3 inch plank and are to be allowed for at 6d per foot. Wind blocks to be found by the undertaker only to be allowed carriage back and forward, but if broken to be allowed by the commissioners. Two boats will be wanting which I suppose may be borrowed in the neighbourhood. All damage to be allowed for done by floods or accidents. To complete the whole in 3 months unless hindered by floods or badness of weather.

**Order**. [73H/SO/2/43v] That the sum of £400 be raised on the inhabitants of hd. Cawrse towards repairing Cilcewydd bridge over the river Severn and the same be paid to Mr. William Davies and Mr. Isaac Jones of Forden, and Mr. Edward Parry of Forden and Mr. William Pryce of Forden. [J.M.]

#### Estimate-bridge. [73H50]

The condition of Glanhafren bridge. P.B. Birket, Edward Thomas and Joseph Pugh. 12 and 13 January 1773. The two long spans from the north west end are near 70 feet long upon two stone pillars both which with the battlements are in a ruinous condition and must wholly be taken down and rebuilt, as the spans are too long at present it is thought necessary to make 3 good wood piers instead, which will appear by the following estimate to be cheaper. All the rest of the piers in some part or other are decayed or broke so that in our opinion it must all be taken down and rebuilt. The length of the bridge is 370 feet, the breadth 11 feet, but is proposed to be 12 ½ feet broad and 1 foot higher than at present. The principal height will be from 20 to 25 feet. The old timber will make good about one half of the length of the south-east end and the abutment at north-west end. An estimate for one of the principal piers.

N.B If there be any objection to the overall size of the scantling it may be altered and abated for in the estimate, and the workmanship of the timber done at 12s per ton; for the new work and the old timber work, at 7s 6d per tone. If it is concluded to shorten the length of the timber work 30 or more yards by filling up with earth at the south-east end there will be old timber to frame the earth and worked at 7s 6d per ton the pavement will be the same as in the estimate. The expense of filling the ground will be about 6d a solid yard. Suppose a stone pillar.

N.B. If the stone pillars is agreed on, deduction of the estimate will be  $\pounds 22$  not  $\pounds 6$ . Above estimate of  $\pounds 46$  will be added

The above may be begun on immediately as there is old timber sufficient for half the work and on dry ground may be completely finished before 1 August next by any plan a stone bridge excepted. W. Rol? 14 January 1773.

# Presentment of a grand jury of the Great Sessions-gaol. [74E94]

Presentment of the grand jury of the Great Sessions at Poole on 24 March 1774. We present the inhabitants of the county for not repairing and enlarging the common prison or county gaol, the said prison being in great decay and the same and its appurtenances being too small, narrow and confined and that owing to such confinement and for want of necessary drains the said gaol, floors and walls, are subject to frequent damps very injurious and obnoxious as well to the prisoners as all other living or entering therein so that they can't be supplied with that wholesome air necessary to avoid the common distempers incident to such prisons. And that the said prison or gaol court and appurtenances have been repaired and ought to be repaired and enlarged by the inhabitants, and that the sum of £60 will be necessary for such repair and addition as appears by an estimate hereunto annexed made by Mr. Thomas Pritchard an experienced architect upon his view this day taken.

### Survey of the gaol. [74E95]

On a survey of the county gaol. Thomas Farnetts Pritchard reports.

That the slated cover on the roof wants some repairs. That the shed on the side of the building which contains the bakehouse and pantry is in a very bad condition. Both the roofing walls and floor must be repaired, covered and relaid. The oven which is fallen down, set up. The windows better secured. The door between and the kitchen should be battened, made more strong and secured with proper iron work.

The two dungeons which are small rooms, only eight feet by seven, have the floor quite rotten on account of the water gushing through the bath wall under the timbers. There is no ceiling, only a naked floor over them which is very unsafe. The back – walls are extremely damp and unwholesome by reason of the earth lying against them. They ought to be repaired and secured by removing the earth from the back walls which should

be cased within; proper drains ought to be made both to the outside and under the floors with bricked arches. New floors of oak timbers should be laid. An arch of bricks should be turned over as a roof. The doors cases and doors to be lined and made more substantial with proper chains, staples and locks. Ventilators comprised of stone should be introduced in the brick?... to a current of fresh air in the ...

To both the stair cases and chamber ceilings there ought to be tubes of wood carried through the roof in order to ventilate them. The front gate needs some repairs and strengthening. And if a coping of oak timber properly spiked and fastened was placed on the walls of the court it would render the prison more secure. To complete the above work, find all materials, make the whole building secure and more commodious will amount to  $\pounds 60$ .

#### Presentment of a high constable. [74E96]

Montgomery, lower division. I present Francis Gough and Thomas Gough for laying their wood pile in the highway in tp. Mellington in pa. #### Filiation order. [75H11]

25 October 1774. The order of Pryce Jones and Henry Wynne, esqs., J.P.s, whereof one is of the quorum, and both of us residing next unto the limits of the parish church within pa. Berriew, concerning a male bastard child born lately of the body of Martha Jones. Whereas it appears to us as well upon the complaint the churchwardens and overseers of the poor of pa. Berriew, as well as upon the oath of the said Martha Jones, that she was on 26 June last past was delivered of a male bastard child at the dwelling house of Thomas Griffiths in tp. Faenor Uchaf in pa. Berriew and that the said child is now chargeable to pa. Berriew and likely so to continue and that Richard Jones of Meifod, husbandman, did beget the said child. And whereas the said Richard Jones has appeared before us in pursuance of our summons for that purpose but has

not shown sufficient cause why he shall not be the reputed father of the said bastard child, we therefore adjudge him to be the reputed father and order that he shall pay to the churchwardens and overseers of the poor of the said parish the sum of  $\pounds$ 5 12s 6d for and towards the lying in of the said Martha Jones and the maintenance of the said bastard child to the making of this order. Further that he pay the sum of 2s 6d weekly from the present time towards the maintenance of the said Child as long as it is chargeable to the parish and that the said Martha Jones pay the sum of 1s weekly in case she shall not nurse and take care of the said child herself. # Deposition-road. [76E60]

Price Clunne of Red House, esq., makes oath that the paper writings hereunto annexed contain a just and true account of the cash by him received and by him disbursed as late surveyor of the highways in tp. Cil in pa. Berriew by virtue of an order made at Midsummer Q.S. 1774 for raising the sum of 6d in the £ in the said township towards the repairs of highways there and of a subsequent order made at Hilary Q.S. 1776 and all other sums whatsoever touching and concerning the same. That he this deponent after the obtaining of such order in conjunction with Evan Ellis and John Rogers, the usual assessors, and Richard Thomas, the then petty constable, caused an assessment to be made and signed by themselves and approved of and signed by two J.P.s. That the said assessment was fixed up in the most public and notorious place within the said township, viz., upon the end of the market house in the village of Berriew with a notice to the inhabitants desiring that if there was any mistake or omission that the same might be rectified which notice was signed by himself, the deponent. The deponent further says that all the inhabitants of the said township approved of and acquiesced under such assessment except Revd Edward Pryce, clerk, vicar of Berriew who this deponent heard was displeased therewith, notwithstanding he had previously told this deponent in he presence of Mr. Jones of Glanhafren, Mr. Owen of Tyn y Coed and divers other inhabitants that he would consent to be rated at a much higher sum than what he was assessed at by this assessment therefore least the said Mr. Pryce had

not seen the said notice so fixed and, to prevent a charge and expense coming upon the township by a litigation this deponent caused a like notice in writing to be given personally to Mr. Pryce that if there was any mistake in the assessment it might be rectified, notwithstanding which Mr. Pryce without giving any satisfactory answer showing any inclination to have the injury he seemed to complain of set right in an amicable way caused a notice signed by himself and James Higgins the occupier of his tithes (who as deponent has been informed and believes joined therein at the particular desire and request of the said Mr. Pryce) to be served on this deponent that they would appeal to the said assessment at the next Q.S. for being inequal, irregular and in many respects illegal.

And this deponent further says that in consequence of him receiving such notice of appeal he applied to Mr. Ambrose Gethyn, attorney at law, to defend the same looking at the said assessment to be fair just and equal that accordingly the said Mr. Gethyn as this deponent believes prepared a brief for defending the said appeal and expended the moneys charged in his bill towards the defence of the same. That upon the Q.S. day when the appeal was to have been heard it was agreed that the subject matter complained of should be referred to the Revd Salusbury Pryce, D.D., to settle. That accordingly the doctor after examining into the state of the assessment determined that the assessment ought to be quashed as to the sums assessed upon the said Mr. Pryce and James Higgins and at the same time recommended it to the deponent that he would on behalf of the township pay the costs of the appeal. That this deponent believes that the said determination of Doctor Pryce was afterwards made an order of the Q.S. and this deponent afterwards on behalf of the township caused and in compliance with the Doctor's recommendation caused the sum of £9 to be paid to Mr. John Meredith the appellants attorney on behalf of the said appellants as their costs taxed. And this deponent further says that he has paid or secured to be paid to Mr. Ambrose Gethyn the sum of £5 17s 8d being the amount of his bill for preparing for the defence of the said appeal besides the costs attending the passing this deponent's accounts at the present Q.S. Signed at the Guildhall in Montgomery 18 April 1776 in court. Pryce Clunne\*, John Edwards\*, clerk of the peace.

Whereas at a G.Q.S. it was ordered that the sum of £400 be raised on hd. Cawrse for and towards the repairing of Cilcewydd bridge, and that the money should be paid to the said William Davies, Isaac Jones, Edward Parry, and William Pryce to be laid out for that purpose, and as they have caused the bridge to be carefully viewed and surveyed by divers experienced and skilful artificers each of whom has reported that the bridge is in so ruinous a state that it cannot be made safe and secure for the purposes intended without being rebuilt, whereupon they caused advertisements to be inserted in the public newspapers desiring anyone who should be so inclined to undertake the same to propose a plan and terms for executing thereof at a day mentioned at which day divers persons attended and exhibited various plans, when the plans and terms proposed by the said Bartholomew Birkett and Edward George were generally approved of. Master planks 6 inches thick and all other planks 3 inches thick. Gravel rails 6 inches by 8 inches. Tops rails 4 inches by 6 inches. Middle rails 4 inches by three inches. A stone wall to be erected for the support of the ground at the north-west end to be made with good mortar 25 feet on each side of the bridge in length and 20 feet deep and also shall and will enclose the road at the northwest end with good and substantial rails for the space of 6 yards. And the bridge when so built and the abutments, walling of ground and railing at the north-west end thereof shall and will and from thenceforth and at all times for and during and unto the full end and term of 21 years maintain, support, and keep in such good order and repair that all may safely pass. And the said William Davies, Isaac Jones, Edward Parry, and William Pryce will pay to the said Bartholomew Birkett and Edward George the said sum of £300 as follows: £100 on 5 April next; £100 on 12 June next; £200 within one month next after the said new bridge and other erections shall be complete and finished. ### Order-road diversion. [78T11]

Whereas the grand jury at the Great Session held at Poole on 8 March 1776 presented the inhabitants of tps. Trwst Llewelyn, Garthmyl and Faenor Isaf for not repairing the highway there from Caerhowell bridge to Efail Fach in tp. Faenor Isaf. And whereas we, two J.P.s, having viewed the said highway found it might be diverted and turned so as to avoid the inundations of the river Severn and Llifior brook and that a new highway might be made in lieu thereof and more commodious to the public and having viewed the course proposed for such new highway through the lands and grounds of the Earl of Powis, Humphrey Jones, esq., and Thomas Jones, gent, particularly described in the plan hereunto annexed and having received evidence of the consent of the said owners by writing under their hands did at our special sessions held at Berriew 18

October 1776 (notice thereof being given by the constable of the said hundred) by order under our hands direct that the said old highway to be diverted and turned and a new highway to be made and continued in manner following: from out of the highway leading from Caerhowell bridge towards Betws at a piece of land belonging to the Earl of Powis in the possession of David Jones, gent, called *Close Llwvd* over the said piece of land and from thence over two pieces of land of the said Earl in the possession of the said David Jones called the Cow Pasture and Dolyblewtin and across a piece of land belonging to the said Thomas Jones called *Closeynimbren* and thereout into a piece of meadow land belong to the said Humphrey Jones called Caedwr and along Caedwr to a maple tree in the hedge between Caedwr and a piece of land called Upper Leasowe and out of Caedwr at or near the said maple tree into Upper Leasowe and along the same to the gate leading out of the said piece of land called Upper Leasowe into the highway leading from Newtown towards Poole in as straight a line as would be well drawn from the said *Close Llwyd* to the said gate as described in the plan hereunto annexed. And whereas the surveyors of the said townships with the consent of us, the justices agreed to and with the Earl of Powis, Humphrey Jones and Thomas Jones that as soon as an order could be obtained for enclosing the said old highway the new highway being first made they the said owners should fence out the for themselves the land and soil of the old highway and of a certain by-lane called Green Lane (adjudged by us to be useless to the public after the making of the new highway) in the said proportion: so much of the land and soil of the old highway as adjoins the lands of the Earl of Powis in tp. Trwst Llewelyn which might be enclosed without detriment to the passage of the inhabitants of that township to their lands lying below the old highway should be enclosed to the use of the earl of Powis; that so much of the land and soil of the old highway in tp. Garthmyl as adjoined the lands of the said Humphrey Jones on either side thereof together with the whole of the Green Lane should be enclosed for the ues of the said Humphrey Jones; and that so much as adjoined the lands of the said Thomas Jones n both side thereof should be enclosed for the use of the said Thomas Jones; all of which all three have agreed to accept in exchange for land used in making the new highway. Now we whose names are hereunto subscribed who have viewed the said highways and that the new highway is in good order do hereby adjudge and order that the old highway being of length of 1090 vards or thereabouts and also the Green Lane be totally stopped up, reserving to the inhabitants of tp. ## Certificate-ship. [79E/SO/2/180v]

These are to certify that due proof has been made before this court upon the oath of Robert Jones of Caernarfon, mariner, master of the sloop or vessel called the Hawke of and belonging to Caernarfon that on or about 14 December there was put on board 260 bushels of refined salt from the salt works of John Blackburn, esq., at Liverpool to be from thence conveyed to the port of Aberdyfi in co. Merioneth. That the vessel being tight firm and staunch and firm to perform her intended voyage sailed from Liverpool with the salt on board in 25 December in order to proceed to Aberdyfi. That on 28 December the wind blowing very hard from the north-west she came to an anchor under the Little Orme's Head but the gale increasing they were obliged to quit that road and take three reefs in their mainsail and run for the bar of Chester. That at 6 p.m. having passed the bar of Chester the violence of the wind split their mainsail and they were immediately

forced on shore on the west side of Hilbre island. That on 29 December the wind still blew very hard and the deponent with the rest of the sloop's crew were all day employed in repairing their mainsail. That on 30 December they were all days employed in docking about the sloop in order to get her of which they would have done the next day but about 10 a.m. of 31 December before the sloop was afloat a violent storm of wind came on from the west-north-west and north-west which lasted all day and the next night during part of which time while it was high water the sloop beat against the ground and made a deal of water. That about 6 p.m. the wind blowing excessively hard and this deponent and the rest of the sloop's company being apprehensive that when the tide floated her she would be driven amongst the rocks and be destroyed and all on board lose their lives they, after securing the sloop in the best manner they could, guitted her and went on shore. That the same evening the sea washed their boat overboard and everything that was loose upon the deck, and the wind blew away all or most of the sails and rigging, and the vessel strained and laboured and he planks started so much that all the said salt was washed out and perished. That the said loss was not occasioned by any leakage of the said vessel before the said violent storm of wind or by any negligence and default of the master or mariners but only by the violence of the winds and the sea aforesaid. That the said salt was the property of Hugh Davies of Machynlleth. That the said Hugh Davies is a subject of this realm and that his Majesty's duties for the said salt were duly paid by the said John Blackburne esq., as appears by a certificate from Robert Scott, esq., collector of the duties on salt at Liverpoole dated 4 December last. The heading for the before mentioned certificate is as follows: At the G.Q.S. held at Montgomery on Thursday 15 April 1779 before Robert Edwards, D.D., and Henry Wynne, esq., and other J.P.s, and all of the quorum.
